## SENATE COMMITTEE INDORSES SUFFRAGE

Report Submitted by Senator Ashurst Urges "Votes for Women."

AMENDMENT FAVORED

Should Not Be Denied Voice in the class of citizens described in the reso-Enactment and Enforcement of Laws, He Says.

is, or at least ought to be, an ax of American liberty that a class of persons so ready and willing to obey the laws as are the women should not be denied a voice in the enactment and enforcement of the laws and the concerns

This is the opinion of the majority of the Senate woman suffrage committee, as expressed in a report on the proposed Chief constitutional amendment giving women the franchise, submitted to the Senate today by Senator Ashhurst of Arizona. The proposed amendment to the Con-

stitution is as follows States to vote shall not be denied or abridged by the United States or by any state on account of sex. Congress shall MANDAMUS IS DIRECTED have the power by appropriate legislation to enforce the provisions of this article." Senator Ashurst announced today that e would use every means in his power o have the Senate act upon the resolution at the present session providing for ubmitting the amendment to the states for ratification. Senator Thomas, chair nan of the woman suffrage comittee, as also declared that he will do all in his power to advance the resolution. will not, however, use such means is might make enemies for the resoluon." said Senator Ashurst, "but I urge the Senate to act, as forcibly as I He added that he hoped the Senate would pass the measure.

#### Ashurst's Report on Resolution. Senator Ashurst's report on the reso

lution was in part as follows: statesmen even urged that strained constructions should be placed upon the onstitution so as to change somewhat he structure of our political ,system

onditions of the day, and thus secure But contrary to the opinion which a hinking people, within the past five months two amendments to the Constitution of the United States have been prolaimed, and they were adopted under the procedure which is indisputably compliated and involved. The adoption of hese amendments, in addition to he valuable reforms they will bring bout, has convinced the American copie that our federal Constitution a living, breathing, dynamic force that

otects persons as well as property, and at it is not a procrustean bed of fixity apable of amendment or change.

#### Not a Radical Movement.

shall not be denied or stitutional law bearing upon such polity has been given earnest and careful con-

ote anywhere, except to a very limited eport to discuss (if, indeed, it be de- individual, while allowing non-resident patable) the question as to the equality corporations to do business here, if a res-

inequality of the two sexes from an ident representative be designated. Counight to be, an axiom of American lib-| repeal of the old pawnbrokers' law in the rty that a class of persons so ready and new enactment and urged that the new willing to obey the laws as are the law could not repeal by implication,

good of the species, should not be denied a voice in the enactment and enforcement of the laws and concerns of the govern-

ment. They are its creators and its main- shark" law. tenance; they are the government. That the granting of the elective franchise to women would add to the strength, efficiency, justice and fairness of government we have not the slightest doubt.

#### Says Women's Votes Would Help.

"It is anomalous and archaic, in a free republic, professedly made up of, controlled by and administered for all the chise, and thus preclude that one-half ant was a non-resident. from the right and power to say what law or polity shall be its rule of conduct. And this anomaly becomes odious and abhorrent when we reflect that the particular one-half of citizenship thus excluded is the identical one-half from which springs so much wisdom, courage, cheer, hope and good counsel.

"In this republic we are engaged in a struggle against fraud and violence, avarice and cupidity; a struggle in behalf of liberty and justice, and it will promote the success of this struggle to add to the present class of voters another class (the women) in whom the materialistic is generally submerged for the idealistic; a class of voters which looks to all laws and movements as to how such laws and movements will affect her children; how such laws and conditions will promote morals, human health and human progress, more especially than as to how this or that particular law or polity will develop or serve material or property interests. In other words, as has been said, Man looks after the affairs of life, but woman looks after life itself." "Woman's sphere, her ideals and her

duties, make her the inescapable and essential conservator of human life, charged as she is with the duty of conserving the human race; and it is in harmony with political and natural justice to accord to her the right to say what laws shall assist her in bringing about the betterment of economic conditions. betterment of economic conditions.
"This question as to who is an Ameri-

can citizen was left somewhat in doubt the Constitution of the United States until the adoption of the four-

teenth amendment in 1868, when that amendment, in the first section thereof, Gallinger created a distinct federal citizenship. "The rights attaching to an Ameri-can citizen may be divided into two classes; that is to say, civil rights and political rights. On the ground of public policy, minors, incompetents and others are frequently denied political rights. The right of suffrage (that is, is a political right which upon the grounds of sound public policy and a due regard for the genius of our form TO THE CONSTITUTION of government should never be withheld from a class of citizens fairly and in good faith proved to be worthy of possessing this right. That the lution (females) has abundantly demonstrated it is eminently worthy of possessing such a right has never

Senator Ashurst submitted report of woman's suffrage committee recommending passage of Chamberlain resolution for constitutional amendment extending suffrage to women.

House: Met at noon and adjourned at 12:13 p.m. until noon Tuesday.

# AT LOBBY INQUIRY

Criticises President's Methods in Handling Tariff Question.

CAUSE SENSATION

Calls Chief Executive's Statements Worst Kind of Influence.

Democrats Aroused. .

President Wilson was brought into the nvestigations of the special Senate committee today by Senator Gallinger as being a man who came perilously near lobbying in some of the things he has done in connection with the tariff bill. Senator Gallinger refrained from making a direct charge that the President had "lobbied" in defense of the Underwood bill, but his intimations were so broad that the three democratic members of the committee were up in arms in a second and he was subjected to a long crossexamination on the subject of White House influence.

Senator Gallinger's statements came out of a clear sky. He had gone through the list of questions propounded to all senators and was about to leave the stand when Senator Reed asked a final ques-

#### Gallinger's Criticism.

"When a man says that he would hang some one as high as 'Haman if that person did not do certain things," Senator Gallinger said, "and that an industry that proposed reduction of wages and did so would be investigated. I think that is about the worst kind of influence I can

"What do you think of a public offi sidious lobby?" asked Senator Nelson. "That he intends to influence public opinion and the opinion of public men, said Senator Gallinger. "Would you regard it as a species of

"From my own inability to define the term to my own satisfaction perhaps I would not like to say. It was a species of lobby influence. "It was an intimation that men are afraid to use their own judgment lest the people suspect them of lobbying? "It so impressed me," replied Senator Gallinger.

"You think then that members of Congress can be intimidated?" asked Chairman Overman. "I have no disposition to criticise put lic officials for cheap partisan purposes. said Senator Gallinger. "I still am forced to the belief that the powerful influence used in behalf of free sugar or free wool or free anything else, is as

#### objectionable as anything else. Tries to Draw Line.

Senator Reed tried to draw the line between the President acting in behalf of the people who elected him and private interests conducting a campaign for sel

"I am an old-fashioned person," replied Senator Gallinger. "I still believe in the the others and attempting to influence legislation.

"The sugar men were represented," said President had a right to use his in-"I have not said he had not, and

don't intend to say so. The President has a right to make his statement in messages to Congress.' "Don't you think that every President since George Washington has consulted with members of Congress?" asked Senator Reed

"I have no knowledge of that point; my relationship has not been very close with Presidents. "Don't you know that Abraham Lincoln frequently consulted with members of Senator Reed.

Yes, but not concerning tariff legisla-"You mean on public business, not pri vate graft," said Senator Reed. "What do you mean by private graft?" interjected Senator Nelson

#### Regrets Use of Words.

a law in which private parties were intheir benefit and not to the benefit of the whole people. He said later that the use ntellectual standpoint. It is, or at least sel also contended there was no expressed of such words had been unfortunate, and Senator Gallinger announced that he Returning to presidential influence Sen ator Reed asked if it was not all right bers of Congress where a great public

> "I think," replied Senator Gallinger, that when the President read the speech of Senator Ransdell on sugar if he had summoned him to his office in the Capitol that is now used, and argued with him with the great power of his office to change his views and secure his vote for free sugar, he would come dangerously near lobbying. I don't know that

#### Would Not Be Unfair.

"I would not undertake to do so.

President is holding up appointments to compel them to vote for legislation they "I make no charge."

Owner of "Rocky Farm." Snator Gallinger, who had not previously testified, told the committee he had no interests outside of a "little rocky farm

in New Hampshire," where he raised hav and apples. He knew of no improper influences or

lobbying methods.

"During my public life of four years in the House and twenty-two years in the Senate," he said, "I have never been approached by any one for himself or for any interest in behalf of any legislation that seemed to me improper. Gallinger took exception to testimony Senator Hollis of New Hampshire had given, in which William Whitman, Winthrop L. Marvin, Herman F. Straw and other New England textile representatives were referred to as "lobbyists." "So long as men can properly exert influence to secure legislation as has been done in very high quarters, it ought to be permitted to the interested parties to

Gregory Hume, a newspaper man, emto see that trouble between labor and ployed by the New York World, died capital is averted as much as possible. this morning. The woman's body, which was not identified last night, is that of Mrs. W. H. Seeley, wife of the manager of the industrial bureau of the New Haven railroad. The condition of seventeen passengers who are at the Stamford Hospital was good this morn-

The correct death list from the wreck follows: Mrs. Edward J. Kelly, Winthrop

Everett H. Woodruff, Flushing, L. L. Dr. Harmon G. Howe, Hartford. Frank K. Confield, Springfield, Mass. Mrs. W. H. Seeley, Boston. Gregory Hume, New York city.

Hume retained above all else his seuse of news when terribly crushed yesterday in the wreck which caused the death of five persons and the injury of about twenty more on the New York, New Haven and Hartford railroad, near World, was returning from a visit to

which was telescoped. When Hume was carried out of the wreck, suffering from a crushed pelvis and compound fractures of both ankies, as well as painful internal injuries, he said to those who were carrying him: "Call up my paper right away and tell them there is a wreck here-a big story. Tell them I am sorry I won't be able to work because I am smashed

### up. Call up my mother, too." Having done his duty—the first thing that flashed into his newspaper mind—he collapsed. An Inexperienced Engineer.

That he had not been running a paswhen he was put on the run, he was nervous because of the newness of the worn off by Thursday, were statements of Engineer Charles J. Doherty of the second section of the Springfield express. which was in collision with its first section yesterday, in the coroner's inques today. On four isolated occasions he run a passenger train. The inquiry began at noon, Doherty being questioned at great length. 11 was visibly nervous, tearing up bits of

paper in his hand. Once or twice hi eves filled with tears The second section of the Springfield express, westbound, crashed into the first section, which was just leaving the station, yesterday afternoon at 4:46 o'cloca The engine of the second section plowed half way through the Pullman car Sky lark, the last car on the first section. In this car there were thirty-one passengers and practically all of them were injured. According to an official statement given out by the railroad, the indications are that the engineer of the second section ran by both the distant and home signals A report from New York says that the air brake did not work.

#### Same Train in October Wreck.

The Springfield express was the same train that was in the wreck at Westport. Conn., last October, in which eight persons were killed and scores injured. This by signals.

The first section of the train, which made up at Boston, reached here of time, but was halted momentarily to change the power from steam to electric ity. While awaiting orders to proceed high speed and crashed into the last Pullman car. The engine plowed through the car for forty feet. This car was well filled, and that more persons were not killed outright is considered miraculous. Simultaneous with the crash the was easily extinguished, however, and the work of rescue begun at once.

#### Story of a Survivor.

Allan A. Warfield of Washington "There were screams and shouts as the car was ripped apart, as though made of paper," said Mr. Warfield, "and the black steaming monster cut through, stopping a few feet from where I was. I was thrown on the floor underneath the seat, wedged in by the walls of the car. A few moments later I regained consciousness in the midst of hissing steam and the fumes of coal gas filling the car. ule of charges which will be just to the tried in vain to move my legs, and in effort to find something by which to raise myself up, touched the wall of charged by taxicabs and other vehicles, aged to free both legs, the left being the communication stating that this is a badly injured, and crawled to the spot where lay a young bride who had been her on the shoulder she tried to turn her head and murmured, 'Is that you,
